Britannia, Calgary, Alberta

Welcome to this distinctive Britannia home, thoughtfully designed by renowned architect Bud Wood, former Dean of the UBC Department of Architecture. Showcasing post-and-beam construction, this bungalow emphasizes natural light and striking angles throughout. Situated on a generous 9,261 sq ft lot, the home features a large deck and a private, sun-soaked south-facing backyard — perfect for relaxing or entertaining. Step inside to a spacious foyer that opens into a bright living room anchored by a gas-starter, wood-burning fireplace. The adjoining dining room, also with a fireplace, and the functional kitchen are filled with natural light and ideal for both everyday living and hosting. The main level offers three large bedrooms, while the fully developed lower level includes two additional spacious bedrooms and a massive family room — perfect for movie nights or gatherings. Currently, the single garage serves as a heated art studio and can easily be converted back to a garage if desired. This is an exceptional opportunity in the heart of Britannia, just steps from parks, the river, Britannia Shopping Centre, and minutes to downtown. Don't miss your chance to own this architecturally significant home in one of Calgary's most sought-after communities.
